Backend:	Python, Odoo, Node.js, REST API design & integration, exposure to Java (Spring Boot) and Django
Databases:	PostgreSQL, MongoDB, MySQL
Cloud & Tools:	Vercel, AWS (basic), Git/GitHub, Postman, Figma

EXPERIENCE

Fullstack Developer - Grupo Frío (WorldKold) **Aug 2026 - Present**

- Build and maintain a multi-role PWA dashboard (drivers, warehouse staff, supervisors, managers) for daily operations, connected to a Python/Odoo backend
- Develop a React Native sales app for delivery drivers to process sales along their routes
- Write and modify backend logic in Odoo (Python) and resolve cross-stack bugs
- Implement analytics to support cost/profitability (P&L) analysis for frozen products

Co-founder & Developer - Krea Studio **May 2026 - Present**

- Co-run a web development agency: partner handles client acquisition, I own full technical delivery
- Built 5 custom sites (React/Next.js), deployed on Vercel

RELEVANT PROJECTS

Lift Log - Gym Tracking PWA | *React · TypeScript · Zustand · Supabase*

- Solo-developed and personally used for 6+ months; offline-first architecture (~15-20 screens), local-first sync with 2s debounce and automatic background sync
- Supabase Row Level Security for per-user data isolation; full lifecycle from architecture to deployment in under 2 weeks

RideShare UDG - University Ride-Sharing Platform | *React · Google Maps API*

- Designed 10 screens in Figma and implemented as React components (trip registration, search, login flows) in a team of 4
